

Meeting

CONFERENCE ROOM

Attendees

Employee and contractor

Agenda

To clear 3 major bugs that are faced by the company

1. Site project
2. Campaign summary
3. Code of pom

Notes

Campaign summary should be done either with campaign ids or ck

Grids are preferred .

Transform review is to be done

Formatting is to be done in excel and combine both things for excel

Pom test

Transform extract and work rewrite the project

So that it is reused for new pom applications

And to connect with shreyan sai if any problem occurs regarding database

Site project faced some oracle query which is to be corrected as it is showing ora 10008 error

Action Items

Version which works faster

Referential integrity is to managed

To finalize the site project details

Pom code review is to be done

Next Meeting Agenda- monday

To discuss about the code which is the most important thing

Campaign summary

Site project

Summary

It is basically a conversation where the two also discussed about the three major issues and realised that the reporting to be done is directly to the boss - calie as the employee is just the project lead. And to take 10 important questions of issue.
